(c) Any interference with State's electronic equipment during an emergency incident will require immediate cessation of operation, transmission or further use of Lessee's equipment. Failure to do so immediately after being notified of such interference could be grounds for immediate termination of Lease and eviction of Lessee.

The remainder of this page has been intentionally left blank.

SECTION 3 – STANDARD PROVISIONS

Otherwise, Lessee shall have no further obligations for the payment of rent to State.

2. DEFAULT.

Lessee shall make all payments to the State without deduction, default or delay (except for offsets explicitly allowed hereunder). In the event of the failure of Lessee to do so, or in the event of a breach of any of the other terms, covenants or conditions herein contained on the part of Lessee or State to be kept and performed, and if such default continues for a period of thirty (30) days after receipt of written notice from the non-defaulting party to the defaulting party of such default, this Lease may, at the non-

defaulting party's sole discretion, be terminated.

Notwithstanding the foregoing, if a non-monetary default may not be reasonably cured within such thirty (30) day period and the defaulting party commences to cure such default within the thirty (30) day period, then the time to cure may be extended through writing signed by both parties, to a time frame and deadline mutually agreeable to the parties. So long as the defaulting party diligently prosecutes the cure to completion under the mutually agreed upon extended deadline, then this Lease may not be terminated under this Clause. However, if the defaulting party operates with unreasonable delay in curing the default or otherwise does not cure within the mutually agreed upon time frame, the non-defaulting party may terminate immediately.

In the event of termination of this Lease, it shall be lawful for State to reenter into and upon the Premises and every part thereof and to remove and store at Lessee's expense all property there from and to repossess and occupy the Premises. In the event State terminates this Lease pursuant to this Paragraph, State shall not be required to pay Lessee any sum or sums whatsoever.

3. INTEREST ON PAST DUE OBLIGATIONS.

State may charge interest, for any amount due to State but not paid when due, at a rate equal to the annual maximum rate allowable by law from the due date. Payment of such interest together with the amount due shall excuse or cure any default by Lessee under the "Default" Paragraph herein.

(b) Any grant herein contained is subject to all valid and existing contracts, leases, licenses, easements, encumbrances and claims of title which may affect said facility.

(c) No priority or other rights will attach to the use of any space in State's building or on said facility.

Lessee agrees to allow the auditor(s) access to such records during normal business hours and to allow interviews of any employees who might reasonably have information related to such records. Further, Lessee agrees to include in any sublease a similar right of the State to audit records and interview Sublessee related to any performance of this Lease.

State may audit Lessee's accounting books at any time upon reasonable request. Further to the extent Lessee provides State with proprietary information, State will hold it in the strictest confidence, and will return it when it is no longer necessary to support any audit exceptions.

12. ACTS OF NATURE.

If any of Lessee's improvements or equipment is destroyed by acts of nature, Lessee may replace them with improvements or equipment of the same general type that meets or exceeds the technical specifications of the original equipment, which occupies no more physical space and consumes no more electrical power. Lessee shall immediately notify State of such items and the date the replacement is complete.

13. HAZARDOUS SUBSTANCE.

Lessee agrees that it shall comply with all laws, federal, state, or local, existing during the term of this Lease pertaining to the use, storage, transportation, and disposal of any

hazardous substance as that term is defined in such applicable law.

(a) In the event State or any of its affiliates, successors, principals, employees, or agents incur any liability, cost, or expense, including attorney's fees and costs, as a result of Lessee's illegal use, storage, transportation, or disposal of any hazardous substance, including any petroleum derivative, Lessee shall indemnify, defend, and hold harmless any of these individuals against such liability.

(b) Where Lessee is found to be in breach of this Paragraph due to the issuance of a government order directing Lessee to cease and desist any illegal action in connection with a hazardous substance, or to remediate a contaminated condition caused by Lessee or any person acting under Lessee's direct control and authority, Lessee shall be responsible for all costs and expenses of complying with such order, including any and all expenses imposed on or incurred by State in connection with or in response to such government order.

14. CONDITION OF PREMISES.

(a) Lessee is aware of the current condition of the Premises and accepts the Premises in "as is" condition. Lessee accepts the Premises as being in good order, condition and repair, unless otherwise specified herein, and agrees that on the last day of the term, or sooner termination of this Lease, to surrender up to State the Premises, with any appurtenances or improvements therein, in the same condition as when received, reasonable use and wear thereof and damage by act of nature, excepted.

It is understood that this Lease may create a possessory interest subject to property taxation and Lessee may be subject to the payment of property taxes levied on such interest.

16. RECOVERY OF LEGAL FEES.

If action is brought by State for the recovery of any rent due under the provisions hereof or for any breach hereof, or to restrain the breach of any agreement contained herein, or for the recovery of possession of said Premises, or to protect any rights given to the State against Lessee, and if State will prevail in such action, Lessee shall pay to State such amount in attorney's fees in said action as the court shall determine to be reasonable, which shall be fixed by the court as part of the costs of said action.

17. VACATING THE PREMISES.

pursuant to the appropriate provisions of the GC.

(2) State will have the right to terminate this Lease and any loss or damage sustained by State by reason thereof will be borne and paid for by Lessee.

19. INSURANCE.

Prior to, or at Lease execution, Lessee shall furnish to State a certificate of insurance, along with all policy endorsements, with State's Lease Number (**L-2951**) indicated on the face of said certificate or endorsement, issued to State with evidence of insurance as follows:

COMMERCIAL GENERAL LIABILITY

Lessee shall maintain general liability coverage with limits of not less than \$1,000,000 per occurrence and \$2,000,000 aggregate annually for bodily injury and property damage liability combined and Fire Legal Liability of at least \$500,000. The policy shall include coverage for liabilities arising out of Premises, operations, independent contractors, products, completed operations, personal & advertising injury, and liability assumed under an insured contract.

The policy must include State of California, their officers, agents, and employees as additional insureds, but only insofar as the operations under the Lease are concerned. The additional insured endorsement must be provided with the certificate of insurance.

AUTOMOBILE LIABILITY

Lessee shall maintain motor vehicle liability with limits of not less than \$1,000,000 per accident for bodily injury and property damage. The State of California and Department of General Services are to be additional insureds with respect to liability arising out of all vehicles owned, hired and non-owned. The additional insured endorsement must be provided with the certificate of insurance.

PROFESSIONAL LIABILITY (ERRORS AND OMISSIONS)

Lessee shall maintain Insurance limits appropriate to the Contractor's profession, with limits not less than \$1,000,000 per occurrence.

WORKERS' COMPENSATION

Lessee shall maintain statutory workers' compensation and employer's liability coverage for all its employees who will be engaged in the performance of the Lease, including special coverage extensions where applicable. Employer's liability limits of \$1,000,000 shall be required, and the policy shall include a waiver of subrogation in favor of the State of California. The waiver of subrogation endorsement must be provided with the certificate of insurance.

GENERAL REQUIREMENTS

Lessee shall ensure that the following general requirements are met:

- a. Insurance Companies must be acceptable to DGS-Office of Risk and Insurance Management.
- b. Coverage needs to be in-force for complete term of this Lease. If insurance expires during the term of the Lease, a new certificate must be received by State within thirty (30) days of the expiration date of the existing policy. This new insurance must still meet the terms of the original contract.
- c. Lessee shall notify State within five business days of Lessee's receipt of any notice of cancellation or non-renewal of any insurance required by this lease.
- d. Lessee is responsible for any deductible or self-insured retention contained within the insurance program.
- e. In the event Lessee fails to keep in effect at all times the specified insurance coverage, State may, in addition to any other remedies it may have, terminate this Lease upon the occurrence of such event, subject to the

SECTION 3 – STANDARD PROVISIONS

provisions of this Lease.

f. Any insurance required to be carried shall be primary, and not excess, to any other insurance carried by State.

g. If Lessee is self-insured in whole or in part as to any of the above described types and levels of coverage, Lessee shall provide State with written acknowledgment of this fact at the time of the execution of this Lease. State may require financial information to justify Lessee's self-insured status. If, at any time after the execution of this Lease, Lessee abandons its self-insured status, Lessee shall immediately notify State of this fact and shall comply with all of the terms and conditions of this Insurance clause pertaining to policies of insurance in regard to those types and levels of insurance.

It is agreed that State shall not be liable for the payment of any premiums or assessments on the required insurance coverage.

20. HOLD HARMLESS INDEMNIFICATION.

This Lease is made upon the express condition that the State of California is to be free from all liability and claims for damages by reason of any injury to any person or persons, including Lessee, or property of any kind whatsoever and to whomsoever belonging, including Lessee, from any cause or causes whatsoever while in, upon, or in any way connected with the Premises during the term of this Lease or any occupancy hereunder, holdover periods or any other occupancy of the Premises by Lessee, except those arising out of the sole negligence or willful misconduct of State, its employees, agents, and invitees.

Lessee agrees to defend, indemnify, and hold harmless State from all liability, loss, cost or obligation on account of or arising out of any such injury or loss, however occurring.

21. LOSSES.

State will not be responsible for losses or damage to personal property, equipment or materials of Lessee and all losses shall be reported to State immediately upon discovery.

22. DEBT LIABILITY DISCLAIMER.

State, including but not limited to the State's General Fund or any special self-insurance programs, is not liable for any debts, liabilities, settlements, liens or any other obligations of Lessee, its heirs, successors or assignees.

State and its agencies, departments and divisions will not be liable for and will be held harmless by Lessee and for any claims or damages associated with any contract, tort, action or inaction, error in judgment, act of negligence, intentional tort, mistakes, or other acts taken or not taken by Lessee, its employees, agents, invitees, guests or anyone acting in concert with or on behalf of Lessee. State has no obligation to defend or undertake the defense on behalf of Lessee or its heirs, successors or assignees.

23. RELOCATION.

(a) In the event that State terminates this Lease pursuant to its terms, Lessee acknowledges and agrees that it has no claim against State for Relocation Payments, Relocation Advisory Assistance, or costs pursuant to the Government Code sections 7260 et seq., or any regulations implementing or interpreting such sections. Lessee further agrees that it has no claim in either law or equity against State for damages or other relief should the Lease be terminated, and waives any such claims it may have.

(b) In the event subleasing, under the terms of this Lease, is permitted, Lessee shall incorporate this Paragraph into the sublease. Failure to do so may obligate Lessee for damages and costs resulting from claims for relocation payments by sublessee.

SECTION 3 – STANDARD PROVISIONS

(c) Notwithstanding the foregoing paragraph, in the event State determines during the term of the lease that the Premises will interfere with planned operations and construction of State facilities, then State shall have the right, upon no less than ninety (90) days written notice to Lessee, prior to the commencement of any construction implementing State's development plans, to relocate Lessee's Premises as defined in the Lease. In such case, State shall be responsible to reasonably coordinate with Lessee in connection with the relocation of the Premises to a new location within the property of State.

In the event State is unable to relocate Lessee within the facility grounds, State, upon 180 days written notice, may require Lessee to leave State premises.

24. SMOKING RESTRICTIONS.

Smoking is not allowed in or upon the Premises. Lessee will enforce the smoking prohibition upon its clients, employees, invitees, and patrons.

Lessee, its employees, invitees, or patrons shall compensate and reimburse State the cost of damage and destruction of any such fire caused by Lessee, its employees, invitees, contractors, or patrons, including State's out-of-pocket expenses for same.

25. RECORDING.

Lessee shall not record this Lease or a short form memorandum thereof. Any such recordation will, at the option of State, constitute a non-curable default by Lessee hereunder.

26. AUTHORITY TO CONTRACT.

If Lessee is a public, private or non-profit corporation, each individual executing this Lease on behalf of said Lessee shall provide evidence, which is acceptable to the State, that he/she is duly authorized to execute and deliver this Lease on behalf of said Lessee in accordance with a duly adopted resolution of

the Board of Directors or in accordance with the Bylaws of said Board, and that this Lease is binding upon said Board of Directors in accordance with its terms.

27. PARTNERSHIP DISCLAIMER.

Lessee its agents and employees shall act in an independent capacity and not as officers or employees of State. Nothing herein contained will be construed as constituting the parties herein as partners.

28. CEQA.

Any physical changes made to the improvements by Lessee or its agents shall comply with the California Environmental Quality Act (CEQA).

29. BANKRUPTCY.

In no event shall this Lease or the leasehold estate become an asset of Lessee in bankruptcy, receivership or other judicial proceedings. Lessee shall be in default under this Lease in the event of any of the following:

(a) Lessee becomes insolvent or makes an assignment for the benefit of creditors; (b) a petition in bankruptcy is filed by or against Lessee; (c) a writ of execution is levied against this Lease or the leasehold estate; or (d) Lessee abandons or vacates or does not continuously occupy or safeguard the Premises.

30. AMENDMENTS AND MODIFICATIONS.

No amendment, modification, or supplement to this Lease shall be binding on either party unless it is in writing and signed by the party to be bound by the modification.

31. MUTUAL CONSENT.

Notwithstanding anything herein contained to the contrary, this Lease may be terminated and the provisions of the Lease may be altered, changed, or amended by mutual consent of the parties hereto in writing.

SECTION 3 – STANDARD PROVISIONS

32. FORCE MAJEURE.

If either Lessee or State will be delayed or prevented from the performance of any act required hereunder by reason of acts of Nature, governmental restrictions, regulations or controls (except those reasonably foreseeable in connection with the uses contemplated by this Lease) or other cause without fault and beyond the control of the party obligated (except financial inability), performance of such act shall be excused for the period of the delay and the period for the performance of any such act shall be extended for a period equivalent to the period of such delay. Nothing in this Paragraph shall excuse Lessee from prompt payment of any rent, taxes, insurance or any other charge required of Lessee, except as may be expressly provided in this Lease.

33. WAIVER.

If State waives the performance of any term, covenant or condition contained in this Lease, such waiver shall not be deemed to be a waiver of that or any subsequent term, covenant or condition. Failure by State to enforce any of the terms, covenants or conditions of this Lease for any length of time shall not be deemed to waive or decrease State's right to insist thereafter upon strict performance by Lessee.

Waiver by State of any term, covenant, or condition contained in this Lease may only be made by a written document properly signed by an authorized State representative.

34. ENTIRE AGREEMENT.

This Lease and its exhibits constitute the entire agreement between State and Lessee. No prior written or prior, contemporaneous or subsequent oral promises or representations shall be binding.

35. PARAGRAPH HEADINGS.

All Paragraph headings contained herein are for convenience of reference only and are not intended to define or limit the scope of any provision of this Lease.

36. SEVERABILITY.

If any term, covenant, condition, or provision of this Lease or any application thereof, to any extent, is found invalid, void, or unenforceable by a court of competent jurisdiction, the remainder of this Lease will not be affected thereby, and will be valid and enforceable to the fullest extent permitted by law.

37. SEPARATE COUNTERPARTS.

This Lease may be executed in counterparts, each of which shall be deemed to be an original, but all of which, taken together, shall constitute one and the same Agreement. The exchange of copies of this Lease and of signature pages by electronic mail in "portable document format" ("pdf") form or by any other electronic means shall constitute effective execution and delivery of this Lease, as long as the original signatures will follow in the mail.

38. SUPERSEDEDURE.

This Lease supersedes and voids any prior license, lease or agreement between State and Lessee identified in this Lease with regards to the Premises.

39. BINDING.

The terms of this Lease and covenants and agreements herein contained shall apply to and shall bind and inure to the benefit of the heirs, representatives, assigns and successors in interest of the parties hereto.

40. ESSENCE OF TIME.

Time is of the essence for each and all of the provisions, covenants and conditions of this Lease.

RADIO VAULT SPACE APPLICATION

Non-State Users

TDe-311 (Rev. 09/2013)

GENERAL INFORMATION

The State of California operates telecommunications facilities at numerous mountaintop locations throughout the State. These facilities were developed for use by State agencies requiring radio communications.

Space at these facilities is made available to other than State of California users when it is surplus to the State's requirements. As the space is limited, State of California agencies are always given first priority. Non-state applicants will be considered in the following order:

1. Federal government agencies
2. Local government agencies
3. Public utilities
4. Private sector entities

In making space available, the State of California attempts to recover its operating, maintenance and management costs. Users are not guaranteed that State facilities will be accessible or operable at all times. Leases are generally issued for five-year periods; in some circumstances the lease period may vary. Leases will be considered for renewal at the end of their term, subject to the space requirements of the State of California.

When requesting vault, tower and/or ground space at a State-controlled site, a TDe-311, Radio Vault Space Application (Non-State Users) must be completed. All applications submitted must include the non-refundable administrative application fee and technical analysis fee. The non-refundable administrative application fee is **\$2500**. The non-refundable technical analysis fee is **\$1000**. Application and fees are to be sent to the State agency controlling the vault. (i.e. The California Department of Transportation, the California Highway Patrol or the Cal OES - Governor's Office of Emergency Services (OES).)

Contact the appropriate State agency for specific details regarding their vault rates and leasing process. If it is unknown which State agency controls a specific site, call (916) 657-9237.

NOTE: When applying for the California Department of Forestry and Fire Protection controlled site, use a CDF Radio Vault Space Application, Non-State Users, TDe-312.

The State must review, manage and engineer any proposed installations. Once a new, renewal or modification TDe-311 application has been received by a State agency and is reviewed administratively, it is forwarded to the Cal OES - Governor's Office of Emergency Services, Public Safety Communications (PSC) for technical analysis. A study will be performed to determine the impact of the application on the existing users at the site. Based on the study, the technical analysis will include specific recommendations to the controlling State agency. If serious technical difficulties are found, OES-PSC will recommend to the State agency to cancel the TDe-311 application. In cooperation with the applicant, the State will attempt to meet all users' operational requirements.

Any subsequent labor time or material costs required for site engineering, antenna or combining system upgrades, or technician labor will be borne by the applicant at the OES-PSC current rates. Applicants will be notified by the Department of General Services (DGS), Real Estate Service Division (RESA) of the amount due prior to occupancy of the vault. No further processing of the application will take place until a written approval of these expenses, as well as a commitment to pay, is received from the applicant by RESA. **NOTE:** Modification of site-master antenna or combining systems may NOT be done by a tenant. Such modifications must be designed by OES-PSC engineering and installed by OES-PSC-approved technician resources.

NOTE: The addition or deletion of any transmitting or receiving frequencies, antennas or equipment is considered a modification and requires the submitting of a TDe-311 application, the non-refundable administrative and technical analysis fees to the State agency. (Approval is required by the State agency prior to the proposed changes taking place in the facility.)

It shall be understood by all applicants that the State is NOT obligated to upgrade any facility to accommodate any lessee. Any improvement required prior to the entry shall be the sole financial responsibility of the lessee. The lessee shall be notified in writing of the upgrades required to accommodate their installation, and payment for these upgrades must be arranged prior to the installation of any such equipment. Any said improvements, including the installation or modification of site-master antenna, combining or power systems, shall remain the property of the State agency unless otherwise stipulated in the lease. NOTE: This excludes the actual radio transmitting and receiving equipment, as well as individual antennas installed for the sole use of the lessee and not part of a master-site arrangement.

The TDe-311/312 application consists of "Application" sheets and "Technical Data" sheets. Please complete, sign, and return the Application and Technical Data sheets to make a formal application. Please note for **New Applicants** that the information on the "Technical Data Sheets" shall reflect what the applicant desires to install at the facility. For **Existing Tenants**, that the information on the "Technical Data Sheets" shall reflect the tenants installed equipment and equipment changes (new installations, removals, etc.). Upon completion of engineering analysis of the application, the tenant's actual installation requirements may require some design changes to ensure the integrity of the State's telecommunications operational requirements. This required design criteria will be outlined in writing and incorporated as a condition of the lease agreement.

All requested information must be supplied to have this application processed. Failure to do so will result in the application being returned for resubmission, complete with an additional non-refundable application fee. Processing time will also be delayed accordingly.

Please attach separate sheets for any remarks or special comments required.

TECHNICAL REQUIREMENTS FOR STATE-CONTROLLED SITES

The following are the maximum radio frequency power outputs for radio equipment in State-controlled facilities:

RADIO SERVICE	FREQUENCY RANGE	MAXIMUM TRANSMITTER POWER OUTPUT TO ANTENNA
FM Broadcast	88-108 MHz	1000 watts
Television Broadcast	54-72 MHz, 76-88 MHz, 174-216 MHz, 470-698 MHz	500 watts
AM Broadcast	535-1705 kHz	10 watts
VHF Low Band	28-54 MHz	120 watts
VHF Mid Band	72-76 MHz	50 watts
VHF High Band and UHF	136-512 MHz	150 watts
700/800/900 Band	698-952 MHz	125 watts
Point to Point Microwave	952-960 MHz	20 watts
Point to Point Microwave	1700-2600 MHz	10 watts
Licensed wireless and mobile telephone	1805-2690 MHz	50 watts
Point to Point Microwave	2.6-40 GHz	3 watts

The following additional standards must be adhered to for any installation at a State-controlled site:

1. A copy of the FCC license or NTIA authorization, or an approved and completed "FCC ID tag", along with the name and phone number of the person responsible must be posted on each transmitter.
2. Control stations and "inverted pairs" on FCC-designated repeater channels will generally not be allowed at a site.
3. Only transmitters authorized by the FCC for that service, designed for use in a high-RF, multi-user environment will be allowed to be installed at a site. All equipment shall be installed and operated in accordance with the site lessor's authorization and approval.
4. Transmitters and receivers will be combined and/or multi-coupled to the maximum extent possible, consistent with the specific system performance requirements of the lessee. A one-time "site assessment" cost may be incurred.
5. All systems NOT connected to the lessor's combining network must be installed to comply with site standards, require lessor's prior engineering approval and meet the following minimum requirements:
 - a) Each transmitter shall have a protective isolator, harmonic filter and band-pass cavity (BPC) which meets the minimum attenuation levels listed in Table I. The isolator and harmonic filter shall precede the BPC in the transmit path;
 - b) Pass/Reject or notch-type duplexers must include a BPC meeting the requirements in Table I in the transmit leg prior to the duplexer input port;

- c) Additional filters, BPC's, isolators and other hardware may be required at the lessee's expense to correct site problems as a result of the lessee's installation;
- d) RF cabling between pieces of equipment within a rack shall be of double-shielded or solid outer conductor variety, such as RG-214, RG-142 or RG-400 cables. NOTE: In general, cabling supplied within a manufacturer's piece of equipment is sufficient to meet this requirement. In some circumstances, however, it may become necessary to modify the equipment to meet the special needs of the site;
- e) RF cabling between racks of equipment in a vault, including cables to and from combining equipment and antenna feed-through ports, shall be of the solid outer conductor variety. In general, all receive lines within the vault shall be 1/4" or 1/2" diameter, such as Andrew FSJ1-50B, FSJ4-50B or equivalent; all transmit lines within the vault shall be 1/2" diameter, such as Andrew FSJ4-50B or equivalent. All feedlines outside the vault, such as between the antenna pigtail and the lightning arrestor plate, shall be at least 1/2" diameter solid-shield cable equivalent to Andrews LDF4-50A HELIAX;
- f) RF connectors on transmit cables shall be Type "N" wherever possible unless the particular piece of manufacturer's equipment has another type of connector installed. RF connectors on receive cables MAY be Type "BNC", although Type "N" is highly recommended. Again, if the manufacturer's equipment has another type of connector installed, this type of connector is acceptable for that junction;
- g) Tiewraps designed for external use, such as the Panduit "76" series TEFZEL cable tie, or another insulated clamp or strap shall be used to secure transmission lines to towers and/or cable ladders. Rubber "donut"-type hangers such as those manufactured by Microflect are also acceptable to be used to secure transmission lines. **Metal clamps, "wraplock", "Band-It" ties, or similar metal strapping for attaching feedlines to a mounting structure is prohibited at State facilities.** If the facility has a wood-pole structure for mounting antennas, the use of utility pipe clamps or conduit clamps is permitted for fastening the feedline to the structure;
- h) State telecommunications facilities are generally designed to accommodate equipment housed in 7'6" tall open frame relay racks, such as the Chatsworth model 46050-505 rack. Racks shall be fastened to the floor with an approved anchor, and connected to an overhead cable tray via an approved method, such as via a length of Chatsworth 11450-001 framing channel and using "J-bolt" kits. A rack elevation diagram is attached to illustrate how equipment will be housed in the 7'6" rack. Complete/return this diagram with the application form;

- i) Most State telecommunications sites have extensive lightning and surge protection systems installed, including lightning arrestor mounting panels. All transmission lines must enter and exit the vault via one of these entry panels using the approved method outlined in the technical requirements of the lease document;
- j) All equipment installed in a State telecommunication site must be connected to the site's ground system. Generally, a ground pigtail will be supplied in the cable tray above the equipment rack. All connections to the ground system must be made via compression fittings or bolted joints. "Split-bolt" connectors are unacceptable as junctions;
- k) All antenna mounts shall be hot-dip-galvanized, and all mounting hardware shall be either hot-dip-galvanized or stainless-steel. Electro-galvanized or plated material for mounting of antennas is not permissible. The use of aluminum for mounting cross-arms or cross-over plates is allowed. At sites where wood pole structures are used, it is not permitted to drill holes through the poles to mount antennas or cross-arms. The only acceptable method of mounting an antenna to such a structure is via a "collar" that clamps around the entire circumference of the pole, sandwiching the pole inside. Such a collar must also be hot-dip-galvanized in construction and use galvanized or stainless-steel hardware.

TABLE ONE

FREQUENCY BAND	ISOLATOR REVERSE ISOLATION	BPC ATTENUATION AT FREQUENCY FROM CARRIER
28-54 MHz	15 dB	20 dB at $\pm$ 600 kHz
72-76 MHz	25 dB	20 dB at $\pm$ 600 kHz
136-174 MHz	25 dB	30 dB at $\pm$ 2 MHz
406-512 MHz	25 dB	15 dB at $\pm$ 2 MHz
