Re: Ambulance driver's certification Emergency Medical Technician (EMT) exemption

McCloud Fire Department (MCFD) runs the emergency response ambulance for the community of McCloud and areas adjacent to McCloud known as County Service Area #3 (CSA3). MCFD is a small volunteer fire department that has trouble staffing our ambulance without over working and over stressing our current EMT's. We would like to request an Emergency Medical Technician (EMT) exemption for some of our drivers.

MCFD is requesting this exemption for the volunteers listed below to help alleviate staffing issues and continue to provide quality emergency coverage to McCloud and CSA3. MCFD requires specific training and supervised drive time of our volunteer ambulance drivers and will continue to do so. This letter is to request the Siskiyou County Board of Supervisors give their approval and provide a document recognizing MCFD and the names of the drivers below as approved for this exemption, so that they may present the approval letter to the Department of Motor Vehicles when acquiring their ambulance driver's certificates.

McCloud Fire Department appreciates your time and consideration.

Sincerely,

Darrell "Charlie" Miller Fire Chief

Volunteers:
