This is ORRSCO'S proposal for the 2020-21 year recycling needs for Emulsified Oil and Water.

Re-refining used oil into new lube stock is the preferred recycling option for used oil by both the US EPA and DOE, and promotes sustainability. Our company offers the following services for your review:

Used Oil Recycling Services: Used Oil will be collected from Siskiyou County locations with an Oil/Water Separator Vacuum Truck Service. Current Prices are based on location and market prices for re-refined oil and fuels. Effective 5/1/2020 through 6/30/2021 all locations will be subject to a \$.45 per gallon surcharge on Used Oil collections in addition to the previously agreed upon charges.

Yreka: A1 Auto Repair. Oberlin Road Transfer Station. Cross Petroleum: The charge will be \$125 minimum, three pickups per trip.

Weed: Black Butte Towing. Andy's Transmission: The charge will be \$125 minimum, three pickups per trip.

Mt. Shasta: Black Butte Transfer Station: The charge will be \$125 minimum, three pickups per trip.

Happy Camp: Happy Camp Transfer Station: \$400 round-trip.

Scott Valley Area: Mean Gene's Market. Quartz Valley Indian Reservation. Valley Tire and Tackle. Valley Auto Repair: The charge will be \$125 minimum, three pickups per trip.

Tulelake: Ed Staub and Son's Merrill. Tulelake Transfer Station: On a route basis \$125 minimum, two stops.

If the county has other locations in the area around these various sites, they will be priced similarly. When possible the County Shops and other customers will count for the minimum stops.

Other materials picked up at the same time with used oil and oily water:

Used Oil Filter Recycling Service: \$50 per 55 gallon barrel.

Oily Solids Disposal (oily solids, rags, absorbent, etc.) \$100.00 per 55 gallon barrel.

Clor-D-Tect testing required prior to pickups to determine that the material is not hazardous waste:

\$20.00 or HydroClor high water will be \$40.00 per kit.

Emulsified Oily Water charge will be \$1.00 per gallon.
