Grant Proposal Information

*Note: The answer to the question below determines what questions will be asked throughout the remainder of the application. Changing this answer will affect the application form below.

A Capital Improvement includes projects that seek to improve a facility, including clubhouse or classroom improvements, commercial grade trap machines, or any other permanent improvement to an organization's property. This does NOT include most JROTC air rifle ranges.

Which Best Describes This Grant Request?

Support for Law Enforcement Activities (not a range improvement)

Project Title

Title this project in 10 words or less.

Special Response Team Equipment

Overview of the Program

Please give a brief overview of the program associated with this grant request.

Looking to upgrade technology to assist Law Enforcement

Detailed Description for this Project

Please provide a detailed description for this project. How will this serve the general public or benefit the community at large? What are the goals and objectives of the project? How will this further 2nd Amendment rights for Americans?

I have recently been placed in charge of my department's Special Response Team which has not had a budget for several years and has not received any items to replace, upgrade, or assist our team in several years. I am hoping that with your help I can purchase both some training tools and safety equipment to aid in keeping my team safe during operations. The money used by your foundation (if awarded) will go to buying conversion kits for our department rifles to be able to use Simunitions rounds which is used for training. The advantage Simunitions has is you can have real fire drills that are more realistic and therefore better training for my team. We often have volunteers aid us in these trainings which are often Police Academy cadets or members of the community. Additionally the funds will be used for a piece of surveillance/recon equipment called a Bouncing Imaging ball which allows a team member to deploy this into area of risk with minimal risk to the team member and give us remote access to 360 degree cameras and audio which allow us to gain vital intel prior to deploying my team into harms way.

Impact of the Program

How will you measure the impact of this project/program? Describe the criteria to be used in determining the success and impact of the project/program. How will this affect the shooting/hunting/2nd Amendment community?

Will these items overall assist in the training for my department and will the tools be used to aid in operations.

Award Recognition

If this request is funded, how will The NRA Foundation and/or Its Friends of NRA program be recognized for its contribution?

If awarded any funds from your organization our department will create a write up thank you and it will be posted to the departments Facebook and Twitter accounts.

Estimated project or program cost

Numbers only. How much do you estimate the project or program you are applying for to cost in 2022? If you are submitting a capital/range improvement request, this number should reflect the ENTIRE project.

\$7,012

Project Completion Date

Estimated date in which the project will be completed.

10/01/2022

Revenue Sources

Aside from NRA Foundation grants, how will this project be funded? Describe other sources of revenue such as grants from other organizations, fundraisers, member dues, sponsorships, participation fees, in-kind donations, Pittman-Robertson Funds, etc.

Any funds over and above what the foundations awards will have to come out of the Sheriff's office's general fund if available.

Partial Funding

If this grant request is not fully awarded, how will this affect the outcome of the program/project? Will the event/project be able to proceed at all? Would this impact participation fees? How does the organization plan to fill any budgetary shortfalls?

If the funds are not received I will most likely need to scratch certain items from the program.

Notes Regarding Request Priority

In addition to setting the priority of items in your funding request, provide any notes regarding the needs of for this project. Example: would prefer 70/30 split of 12GA vs 20GA shells.

If granted, I hope to request funds for new Simunitions equipment and ammunition for training and if possible a throw imaging ball used for recon so as to keep members out of harms way and still be able to gain intelligence for the operation.
