Project Name:	McCloud Branch Hardship Grant
Amount of Grant:	\$ 11,475
Last Updated:	December 17, 2021

Project Description:

The McCloud branch is the last of the 12 branches to be connected to the Library's high-speed Broadband service. The service is eligible for Federal and State reimbursement programs (E-rate and CTF, respectively). However, the reimbursements come back to Siskiyou County one year after the service. To help bridge the costs between the outlay of funds and the reimbursement, the State Library offers Hardship grants to pay for the first 12 months of service.

Summary:

The State Library will provide direct funds to the County to pay for the first 12-months of high-speed Broadband service for the McCloud branch.
