

**Kidder Creek Orchard Camp  
Final Environmental Impact Report**

**2.0 COMMENTS AND RESPONSES TO COMMENTS ON THE DRAFT EIR**

**2.0.1 Introduction**

This Final Environmental Impact Report (FEIR) was prepared in accordance with the California Environmental Quality Act (CEQA) (California Public Resources Code Section 21000, et seq.) and State CEQA Guidelines (California Code of Regulations Section 15000, et seq.). The County of Siskiyou is the lead agency for the environmental review of the Proposed Project and has the principal responsibility for approving the Project. This FEIR assesses the expected environmental impacts resulting from the approval and implementation of the proposed project and responds to comments received on the Draft EIR (referred to as Draft EIR or DEIR).

**2.0.2 List of Commenters**

The following individuals and representatives of organizations and agencies submitted written comments on the Draft EIR. To assist in referencing comments and responses, the following coding system is used:

- Agency and service provider comment letters are coded by letters and each issue raised in the comment letter is assigned a number (e.g., Comment Letter A, comment 1 is referred to as A-1).
- Individual and interest group comment letters are coded by numbers and each issue raised in the comment letter is assigned a number (e.g., Comment Letter 1, comment 1 is referred to as 1-1).

**2.0.3 Requirements for Responding to Comments on the Draft EIR**

State CEQA Guidelines Section 15088 requires that lead agencies evaluate all comments on environmental issues received on the Draft EIR and prepare a written response. The written response must address the significant environmental issue raised and must be detailed, especially when specific comments or suggestions (e.g., additional mitigation measures) are not accepted. In addition, there must be a good faith and reasoned analysis in the written response. However, lead agencies need only respond to significant environmental issues associated with the project and do not need to provide all the information requested by commenters, as long as a good faith effort at full disclosure is made in the EIR (State CEQA Guidelines 15204).

State CEQA Guidelines Section 15204 recommends that commenters provide detailed comments that focus on the sufficiency of the Draft EIR in identifying and analyzing the possible impacts on the environment and ways in which the significant effects of the project might be avoided or mitigated. State CEQA Guidelines Section 15204 also notes that commenters should provide an explanation and evidence

supporting their comments. Pursuant to State CEQA Guidelines Section 15064, an effect shall not be considered significant in the absence of substantial evidence supporting such a conclusion.

State CEQA Guidelines Section 15088 also recommends that where a response to comments results in revisions to the Draft EIR, those revisions be incorporated as a revision to the Draft EIR or as a separate section of the Final EIR.

### **2.0.4 Responses to Comments**

Each comment letter received for the Project and the individual responses to each comment are included in this document. The Response to Comments are divided into various sections as follows:

Comments on DEIR:

- Section 2.1 Agency Comment Letter Responses,
- Section 2.2 Public Comment Letter Responses, and
- Section 2.3 Master Responses.

Comments on Partial Revised Draft EIR:

- Section 3.1 Responses to Agency and Public Comment Letters Received on the Partial Recirculated Draft EIR.

Comments of 2<sup>nd</sup> Partial Revised Draft EIR:

- Section 4.1 Responses to Agency and Public Comment Letters Received on the 2<sup>nd</sup> Partial Recirculated Draft EIR.
