Contractor shall file a new or amended certificate on the certificate then on file. **If changes are made during the term of this Contract, no work shall be performed under this agreement, and no payment may be made until such certificate of insurance evidencing the coverage in paragraphs, 5.05, the general liability policy set forth in 5.06 and 5.10 are provided to County.**

Contractor understands and agrees that his personnel are not, and will not be, eligible for memberships in, or any benefits from, any County group plan for hospital, surgical or medical insurance, or for membership in any County retirement program, or for paid vacation, paid sick leave, or other leave, with or without pay, or for any other benefit which accrues to a County employee.
- 5.09 IRS/FTB Indemnity Assignment:** Contractor shall defend, indemnify, and hold harmless the County, its officers, agents, and employees, from and against any adverse determination made by the Internal Revenue Service of the State Franchise Tax Board with respect to Contractor’s “independent contractor” status that would establish a liability for failure to make social security and income tax withholding payments.
- 5.10 Professional Liability:** If Contractor or any of its officers, agents, employees, volunteers, contactors or subcontractors are required to be professionally licensed or certified by any agency of the State of California in order to perform any of the work or services identified herein, Contractor shall procure and maintain in force throughout the duration of the Contract a professional liability insurance policy with a minimum coverage level of (\$1,000,000) One Million Dollars, or as determined in writing by County’s Risk Management Department.

Contractor may retain copies of all such materials exclusively for administration purposes. Any use of completed or uncompleted documents for other projects by Contractor, any subcontractor, or any of their agents or employees, without the prior written consent of County is prohibited. It is further understood and agreed that all plans, studies, specifications, data magnetically or otherwise recorded on computer or computer diskettes, records, files, reports, etc., in possession of the Contractor relating to the matters covered by this Contract shall be the property of the County, and Contractor hereby agrees to deliver the same to the County upon request. It is also understood and agreed that the documents and other materials including but not limited to those set forth hereinabove, prepared pursuant to this Contract are prepared specifically for the County and are not necessarily suitable for any future or other use.
- 5.13 Contractor's Books and Records:** Contractor shall maintain any and all ledgers, books of account, invoices, vouchers, canceled checks, and other records or documents evidencing or relating to charges for services or expenditures and disbursements charged to the County for a minimum of five (5) years, or for any longer period required by law, from the date of final payment to the Contractor under this Contract. Withholding is required if the total yearly payments made under this contract exceed \$1,500.00.

Unless the Franchise Tax Board has authorized a reduced rate or waiver of withholding and County is provided evidence of such reduction/waiver, all nonresident contractors will be subject to the withholding. It is the responsibility of the Contractor to submit the Waiver Request (Form 588) to the Franchise Tax Board as soon as possible in order to allow time for the Franchise Tax Board to review the request.

- 5.17** Compliance with Child, Family and Spousal Support Reporting Obligations: Contractor's failure to comply with state and federal child, family and spousal support reporting requirements regarding contractor's employees or failure to implement lawfully served wage and earnings assignment orders or notices of assignment relating to child, family and spousal support obligations shall constitute a default under this Contract. Contractor's failure to cure such default within ninety (90) days of notice by County shall be grounds for termination of this Contract.
- 5.18** Conflict of Interest: Contractor covenants that it presently has no interest and shall not acquire an interest, direct or indirect, financial or otherwise, which would conflict in any manner or degree with the performance of the services hereunder. Contractor further covenants that, in the performance of this Contract, no subcontractor or person having such an interest shall be used or employed. Contractor certifies that no one who has or will have any financial interest under this contract is an officer or employee of County.

Amanda Kimball, Project Coordinator
Siskiyou County Department of General Service
190 Greenhorn Rd.
Yreka, CA 96097

Dear Amanda,

Below is the proposal for Ray-Mac Mechanical for the County of Siskiyou Request for Proposal RFP # 22-107010-06 for the Examine and Assess the Heating Ventilation and Air Conditioning (HVAC) Systems for All County Owned Facilities. The proposal pricing will be provided in three separate prices. The first price will be for the audit of the HVAC systems for each building per the scope of work provided in the RFP. The second price will be for the replacement of 4 HVAC systems that need immediate replacement for the Yreka Farm Advisor, Happy Camp Sheriff Substation, and Community Development. The third price will be individual pricing for all 10 building to provide preventative maintenance.

2. Qualifications:

a. Over the last 44 years Ray-Mac Mechanical has been involved in countless commercial retro-fit projects for customers. The projects always originate due to the age of the equipment approaching the end of its life cycle and us performing an audit on the property and determining what the best course of action is for the owner to bring their property up to current standards for the use of the building. Some of our more recent projects and description of what we performed are listed below.

Yreka Shopping Center:

When Dickerhoof Property Management acquired the Yreka Shopping Center in Yreka we came in and did an audit on the existing HVAC equipment on all the buildings and provided him a course of action for items that needed to be addressed on the property. We also provided him budgeting and a priority list on which areas needed action first to help reduce the maintenance costs on the property.

Quincy Jr/Sr High School:

Quincy Jr/Sr High School was wanting to transition from the use of oil for the heating of their school and add air conditioning to the entire campus. Ray-Mac was hired to perform a design build project for the school and go through their entire campus and determine what type of system would be best for each area of the school and perform the installation of an all new HVAC system for all buildings on the campus and perform repairs to the existing system as was determined to be upgraded during the audit of the campus.

b. See attached copies of contactors license and DIR Registration.

3. Company Profile

Ray-Mac Mechanical was founded in 1978 by our President John McDowell. Over the last 44 years it has grown from a 2-person service company to a company with over 35 employees specializing in commercial construction, public works projects, hospitals, and HVAC/Refrigeration service and repair, along with plumbing and design build projects. Over our 44 years in business we have performed countless projects similar to the RFP two of which were detailed above. Ray-Mac routinely performs the replacement of existing HVAC systems with new equipment of higher or equal efficiency, and has the equipment to pressure test and replace or repair existing ductwork that is found to be leaking to help improve the operation of the HVAC systems. Currently we employ 4 employees who specialize in Direct Digital Controls for the operation of large commercial and government buildings, allowing the owners to remotely control and monitor their sites without having to be physically onsite. Additionally, we currently have 100's of residential and commercial customers which we provide preventative maintenance for to ensure their equipment is operating at its highest potential and address issues before they become a catastrophic issue.

4. Approach

During the RFP mandatory job walk it was determined that there were four sites that needed to have their existing HVAC systems replaced immediately. These sites were the Happy Camp Sheriffs Sub-Station, Yreka Farm Advisor, and one unit on the Community Development building. The replacement of these systems has been priced separately below so that they can be replaced within 30 days of the reward of contract.

We will visit each of the 10 building sites within 30 days of the reward of contract and do a HVAC inspection of the site and record all the equipment on site to determine the age of the equipment and current condition. Each duct system will be inspected to determine the quality of the system and to determine any issues ie. broken ducts, collapsed ducts, or disconnected ducts. From these inspections we will work up a write up within the next 30 days describing what was found at each site and a course of actions that needs to be taken at each site with pricing. This write up will be provided and reviewed with the county to help them determine which buildings they would like to address based off their budget.

Depending on what is found during the inspections and what items the county would like to address we will determine a construction schedule to handle the replacement or installation of equipment, ducting, controls, ect. With current lead times on equipment it is hard to determine timeframes at this time.
