IJ.01	Goal #1	Direct	001	Portable License Plate Readers	This investment supports the deployment of automatic license plate readers as well as the software for data analysis. This will enable the capability to alert officials if an identified vehicle associated with member or members of known extremist groups arrive at key events or facilities. This information would be shared with partners within local, state and federal government; stakeholders responsible for critical infrastructure such as power, communications, and water treatment facilities. This activity meets HSGP's LETPA requirement because detection equipment, as well as inspection and screening systems are on the list of allowable equipment articulated in Information Bulletin 485 and the Fiscal Year 2007 Law Enforcement Terrorism Prevention Program Guidance. The (Equipment) being purchased here has a law enforcement terrorism prevention nexus as it will be used by law enforcement officers for anti-terrorism activities	SHSP	LE	Equipment	Access Control and Identify Verification	Build	Shareable		3,505			0	3,505	0.0%
IJ.02	Goal #2	Direct	002	Personal Radiation Detectors	This investment supports the target hardening of various large public events. This will be accomplished by having certain public safety personnel equipped with personal radiation detectors during large events. Examples of events that this can be deployed would be the 4th of July Walk/Run in Mt. Shasta City, the Siskiyou County Golden Fair in Yreka, and or any other scheduled large event that is identified as a potential soft target. This project meets HSGP's LETPA requirement because target hardening is listed as an eligible activity within Section 2006 of the Homeland Security Act of 2002.
