Hello Bernadette

October 4 2024

My name is Mark Coats, I have a small ranch located in Siskiyou County, located North of Dorris. The Ranch was larger when I first purchased it. But, through the years and many challenges I have had to downsize.

The owner I purchased the Ranch from was Don Rowlett, he was a successful businessman and he always believed he would like to build a RV park and Campground here. So, he removed it from the Williamson Act when he purchased it.

I only operate as an agricultural entity, and have many years of tax returns to prove it. I certainly hope you can accommodate the agricultural community by supporting it within our County.

I tried to reinter the property on my purchase, but was denied. I tried several times after and always had the same response. I actually sit on the Range advisory board for the Supervisors and helped in the writing of "The Code of the West" for the County. I had hoped to bring this issue to the board, but the Range Advisory Board never has a meeting. Stifling any suggestions on any matter, and that list is rather lengthy.

Sincerely
Mark Coats
