**Subject:** Golden Eagle

Good afternoon,

I'm writing this email on behalf of Golden Eagle,

However, I'm not going to waste your time or my time listing all the many studies and positive programs that, so many others have already listed for you and that I'm sure you are well aware of, although you seem to be ignoring. Instead, I'm going to mention some things that you may not have realized. Or may have forgotten since you ignored them a long time ago.

First - I find it rather ironic as to why you all have decided to do something now based on one person's complaint "that he just doesn't like charter schools". When, as mentioned, you all have ignored so much regarding schools.

Call me paranoid, but I think the reasons run deeper than that and tie in to all the other problems the school board is facing and has had and that you all have let go unchecked for years.

I find it ironic that as more kids move out of the normal school district due to the racism, assaults, sexual assaults, favoritism, prejudices on all levels (gender, sexual orientation, class standing, religion), lack of decent education and curriculum, overworked teachers, under qualified teachers being forced to teach classes that no longer have teachers due to the district's persecution of any decent teachers that have the kids in mind, that you guys as a collective whole would make a decision to hinder, harm and hurt the one alternative many of these kids have to still make something of themselves in life rather than just dropping out and quitting.

I find it ironic that when the school district starts losing money to a good and positive alternative, you go out of your way to make it harder for this alternative school. Furthermore, I find it absolutely amazing that your answer, as it seems it has always been, is to just further the harm of this community's children,

You accepted the harm in ignoring the other issues that were brought to you by myself and many others regarding the other schools and here in this issue you choose to act in a way that, yet again, just harm's the youths of this community and is the worst possible choice to make in the situation.

The community has spoken and chosen alternatives to the horror of the other schools, but yet, just as you always have, you seem to be ignoring the community's voice in these matters still

I can't help, but, wonder why you, as humans, would make all your decisions and actions to be the worst ones possible for our youth.

My daughter goes to Golden Eagle. She left the other. Mount Shasta school because she was forced to sit next to a kid that sexually assaulted many people she knew, a kid that was allowed to grade her papers and mark her down, because she was one of the ones to tell on him, a kid who had no repercussions for his actions, because of who his mother knew and knows.

I also find it rather selfish that you, the board, would set a meeting time and date for this very important issue at such a time that the vast majority of the community can not attend and that is convenient to only the five of you, rather than the hundreds of people that this decision influences.

This issue deals with our children that most of us have to work to support. It deals with a school that will be in session and whose administrators are going to be at. I can't help but wonder if this is just another tactic to manipulate the situation and give the unknowing the facade of you guys trying to do the proper action.

Without Golden Eagle, my child would not be going to school because I, as a parent, would never force my child to deal with that, even if the school board and you all by proxy choose to allow that behavior.

Golden Eagle and its expansion and growth is a valuable and needed resource in this community. I know you all can't help the past mistakes that have been made. However, you all can and should help be a part of the solution to the past problems and do what's best for all of our children and allow Golden Eagle their land use right. If you have made it this far, then thank you for actually reading my letter for a change and hopefully making the right choice.

We, the community and me and my family stand with Golden Eagle as you all should as well.

Thank you for your time and consideration on this matter,

Scott Greenlee,

Parent of four children (two still in the school system and one graduated from this system) and an active voting member of this community
