Dear Teresa:

**SUBJECT: PROPOSAL FOR 2025 (12 MONTH) CORRECTIVE ACTION
MAINTENANCE, GROUNDWATER AND SOIL-GAS MONITORING
BUDGET, TULELAKE DISTRICT SHOP, 647 MAIN STREET,
TULELAKE, CALIFORNIA**

This letter serves as our proposal to maintain current corrective action measures at the Tulelake District Shop, 647 Main Street, Tulelake, California, pursuant to ongoing directives from Mr. Cody Walker of the North Coast Regional Water Quality Control Board. These measures include weekly monitoring and maintenance of the groundwater-treatment system (ozone-injection system) and oxygen and volatile organic compounds in soil gas; semi-annual groundwater and soil-gas monitoring and reporting (1st-Half 2025 and 2nd-Half 2025); and preparing reimbursement requests forms for the California Underground Storage Tank Cleanup Fund (USTCF), which reimburses costs associated with the monitoring and remediation of your site.

The cost of the work is estimated to be \$108,016 for a 12-month period. This estimated cost reflects current (2023) USTCF hourly labor rates, mileage rates, and allowable mark up percentage (10%) on laboratory costs and materials. The estimate also includes the 2025 estimated waste-discharge permit fee of \$16,669 (without markup).

If you would like us to perform this work, please attach this letter to your authorization and furnish us a signed copy or copies to authorize.

Please contact me at (530) 275-4800 or dkirk@lwrnc.com if you have any questions regarding this proposal.

Sincerely,

David L. Kirk
