Definitions

At the Siskiyou County Library, we capture the personal data on this form to help improve our services to you. We limit our uses of this data for library-related activities and to allow us to contact you about your account.

NAME – To help identify the patron associated with the library account

BIRTH DATE – To prevent the creation of duplicate accounts and to help differentiate patrons with the same name. This information will also help capture the overall demographics of our library system.

PHONE NUMBER – To contact you about your account

MAILING ADDRESS – To send you information about your account and to confirm you have residency in Siskiyou County. To increase access to the library resources, General Delivery will be acceptable as an address for local residents that have no fixed address.

EMAIL ADDRESS – To receive automatic notices about your account, including when items are due back, late or if you have something waiting for you to pick-up

Retaining Library Card Application forms

Currently, library patrons must renew their account every year. Those branches that retain the library card application forms (not a requirement for library branches) can dispose any paper application after a year because the patron has renewed their account and re-affirmed their membership.
