County will assemble an evaluation committee made up of County staff to review and evaluate proposals. No information will be provided to anyone about the status of proposals while they are under evaluation.

The criteria for selecting the firm is provided in Section 7- Submittal Evaluation Table and Rating Methodology below:

7) SUBMITTAL EVALUATION

Overall criteria used to evaluate responses to include:

Cost
Experience/Qualifications
Approach/Methodology
Equipment Proposed

Rating Methodology

The County evaluates responsive proposals for Cost, Experience/Qualifications, Approach/Methodology, and Equipment Proposed to determine the highest overall point score. The rating scale establishes standards by which The Proposal Evaluation Committee assigns points to proposals, and it ensures that members of the Proposal Evaluation Committee evaluate each proposal with consistent methodology. There is a maximum of 100 points available as follows:

Component	Maximum Points	Point Factor
Cost	30	Price of lowest cost proposal X maximum points available
Experience/Qualifications	15	Qualitative Evaluation formula (below)
Approach/Methodology	30	Qualitative Evaluation formula (below)
Equipment Proposed	25	Qualitative Evaluation formula (below)
Total	100	

• **COST**

The RFP Facilitator calculates points for cost and verifies for accuracy.

The proposer with the lowest cost proposal receives the maximum points allowed. All other proposals receive a percentage of the points available based on their cost relationship to the lowest cost proposal. Divide the lowest cost proposal received by the cost of the proposal and multiply the results by the maximum points. The result is the awarded points.

The County uses the following formula to award cost points:

Lowest Proposer's Cost = (factor) X maximum cost points = cost points for other proposer.

EXAMPLE:

Lowest cost proposal is \$100,000 (maximum 30 points awarded)

The other proposal is \$125,000. The lowest cost proposal is 80% of the other proposal cost.

*(Lowest cost proposal) $\frac{\$100,000}{\$125,000} = .80 \times 30$ (maximum points) = 24 points
(Next lowest cost proposal) \$125,000*

In addition to the cost points, the Proposal Evaluation Committee judges and evaluates for cost/value effectiveness and cost adequacy. The Proposal Evaluation Committee awards points as part of the technical (“qualitative”) score in the Experience/Qualifications, Approach/Methodology, and Equipment Proposed sections.

• **EXPERIENCE/QUALIFICATIONS, APPROACH/METHODOLOGY, AND EQUIPMENT PROPOSED**

The Proposal Evaluation Committee reviews the Experience/Qualifications, Approach/Methodology, and Equipment Proposed components of each responsive proposal submitted. After reviewing the proposals, the Proposal Evaluation Committee rates each proposal component using the following formulas and criteria:

	Experience/Qualifications (15 points)	Approach/ Methodology (30 points)	Equipment Proposed (25 points)
Rating	Point Range	Point Range	Point Range
Exceptional	13 – 15	25 – 30	21 - 25
Good	10 – 12	19 – 24	16 – 20
Acceptable	7 – 9	13 – 18	11 – 15
Marginal	4 – 6	7 – 12	6 – 10
Unacceptable	0 – 3	0 – 6	0 – 5

Rating	Definition and Criteria for Rating Program Design and Organizational Capacity components of Proposal
Exceptional	The proposal has exceptional merit and reflects an excellent approach which should clearly result in the superior attainment of all requirements and objectives. The proposed approach includes numerous substantial advantages, and essentially no disadvantages, and the County can reasonably assume that it will result in outstanding performance.
Good	The proposal demonstrates a sound approach which the County expects to meet all requirements and objectives. This approach includes substantial advantages, and few relatively minor disadvantages, which collectively can be expected to result in better than satisfactory performance.
Acceptable	The proposal demonstrates an approach which is capable of meeting all requirements and objectives. The approach has both advantages and disadvantages, however the disadvantages do not outweigh the advantages and the County expects the approach to result in satisfactory performance.
Marginal	The proposal demonstrates an approach which, while being capable of meeting all requirements and major objectives, may not meet some lesser objectives. Any advantages that exist in the approach slightly outweigh existing disadvantages.

Unacceptable	The proposal demonstrates an approach which will very likely not be capable of meeting all requirements and objectives. This approach has one or more substantial disadvantages. Collectively, the advantages and disadvantages are not likely to result in satisfactory performance.
---------------------	---

CONSOLIDATION OF INDIVIDUAL EVALUATION SCORES

After each member of the Proposal Evaluation Committee has completed the evaluation process, the Proposal Evaluation Committee meets as a group to discuss the proposals, identify, and make clarifications. If aspects of a proposal needs clarification, the RFP Facilitator may communicate with a proposer to clarify uncertainties or eliminate confusion, which may include scheduling oral interviews with top candidate(s). This communication may not result in a material or substantial change to the proposal, but Proposal Evaluation Committee members may modify their scores during the clarification period. The RFP Facilitator reads the individual scores and calculates a total of the combined scores.

NOTICE OF INTENT TO AWARD

Once the Proposal Evaluation Committee evaluates and rates all factors, the RFP Facilitator makes a recommendation for proposal selection to the Department’s management team. Butte County awards the contract to the most responsive proposer whose proposal is determined to be the most advantageous to the County, taking into consideration the evaluation factors set forth in the RFP.
