GRANT OPPORTUNITIES (/EMPOWERING-ACCESS-PROJECT)

EmPOWERing Access Project

Application Deadline: Friday, February 6, 2026, at 12:00 noon

The Southern California Library Cooperative and the California State Library encourage California public libraries to participate in the EmPOWERing Access opportunity. This project will assist library users in making connections, both digitally and physically, to their community by providing new ways to access information and learn new skills. The project will fund:

- Accessible privacy booths
- Charlie carts
- Book bikes for outreach
- Family workstations
- Light tables
- Sewing machines

[Apply here for the EmPOWERing Access opportunity.](https://www.surveymonkey.com/r/QQ8TDBT)
[. \(https://www.surveymonkey.com/r/QQ8TDBT\)](https://www.surveymonkey.com/r/QQ8TDBT)

EmPOWERing Access Technical information session for privacy booths, Charlie carts, and book bikes

EmPOWERing Access Information Session

EmPOWERing Access Webinar: Family Workstations, Light Tables & Sewing Machines

EmPOWERing Access Webinar: Family Workstations, Li...

This project is supported in whole or in part by the U.S. Institute of Museum and Library Services under the provisions of the Library Services and Technology Act, administered in California by the State Librarian.

Attachments: Siskiyou_EA_Survey.pdf

Follow Up Flag: Follow up
Flag Status: Flagged

Hi Deborah and Teresa,

Here is pdf copy of your completed survey. This is what you requested along with estimated prices that do not include taxes and shipping: 1 Privacy Booth (\$44k), 2 Book bikes (\$14k), 5 Family workstation (\$26k), 1 Lighttable (\$3k) and 6 Sewing machines (\$2,400).

Please note that this summary reflects your library's survey responses and estimated pricing only. It is not a statement of award or funding commitment. Awards are still under review, and final determinations have not yet been made.

Please let me know if I can help with anything else!

Best,

Nerissa Snodgrass
Project Manager

Page 3

Q4

Yes

Would you like to request Pillar accessible privacy booths?

Page 4

Q5

If so, how many Pillar accessible privacy booths are you requesting?

Q6

Please provide the list of locations where the booths will be installed, including library name, full street address, and quantity of booths requested per location.

Siskiyou County Library

Yreka Branch
719 Fourth Street
Yreka CA 96097

Q7

I certify

I certify that I have reviewed the Pillar booth information sheet, and that these booths meet all local codes and requirements.

Q8

Please select the community need(s) associated with this item and rate the level of need. 1 – Not a Need The community does not consider this an important need. 2 – Slight Need / Low Priority There is minimal concern or demand for this need. 3 – Moderate Need / Medium Priority The need is somewhat important but not urgent. 4 – High Need / High Priority The community strongly values this need. 5 – Critical Need / Immediate Priority This is an essential need requiring urgent attention or resources.

Provide my community with broadband access in a private space to conduct online activities, such as telehealth, legal, tutoring, or career-related appointments/interviews	5
Provide additional quiet space	4
Provide program space for library supported activities like one on one technology help	5

Q9

Please include any community needs not listed above and include the level of need.

Staff support: Our facility does not have enclosed office space. Staff could use a Pillar Booth for sensitive calls, conflict de-escalation, or regrouping. Need = 3

Page 5

Q10

No

Would you like to request Charlie carts?

Page 6

Q11

Respondent skipped this question

If so, how many Charlie carts are you requesting?

Q12

Respondent skipped this question

Please provide the list of locations where the carts will be delivered, as well as the zip codes where they will be used. Please note these carts will be installed by Pillar on site upon delivery.

Q13

Respondent skipped this question

Please select the community need(s) associated with this item and rate the level of need.1 – Not a Need The community does not consider this an important need.2 – Slight Need / Low PriorityThere is minimal concern or demand for this need.3 – Moderate Need / Medium PriorityThe need is somewhat important but not urgent.4 – High Need / High PriorityThe community strongly values this need.5 – Critical Need / Immediate PriorityThis is an essential need requiring urgent attention or resources.

Q14

Respondent skipped this question

Please include any community needs not listed above and include the level of need.

Page 7

Q15

Yes

Would you like to request book bikes?

Page 8

Q16

If so, how many book bikes are you requesting?

Q17

Please provide the list of locations where the book bikes will be delivered, as well as the zip codes where they will be used.

Siskiyou County Library

Yreka Branch
719 Fourth Street
Yreka CA 96097

96097,96027,96064,96067,96134,96094

Q18

I acknowledge

I acknowledge that any book bikes provided to my library will include the California State Library logo and the required funding statement.

Q19

Please select the community need(s) associated with this item and rate the level of need.1 – Not a Need The community does not consider this an important need.2 – Slight Need / Low PriorityThere is minimal concern or demand for this need.3 – Moderate Need / Medium PriorityThe need is somewhat important but not urgent.4 – High Need / High PriorityThe community strongly values this need.5 – Critical Need / Immediate PriorityThis is an essential need requiring urgent attention or resources.

Increase accessibility by bringing library services to neighborhoods and helping eliminate transportation barriers	3
Improve community engagement at local events, to promote literacy and other library programs	5
Provide library services via more sustainable transportation	2

Q20

Please include any community needs not listed above and include the level of need.

This would be an amazing way to provide services to the nursing homes in our area. Level of need = 4.

Page 9

Q21

Yes

Would you like to request family workstations?

Page 10

Q22

If so, how many family workstations are you requesting?

5

Q23

Please provide one location where all workstations can be delivered, including library name and full street address. Please note these workstations will require assembly.

Siskiyou County Library

Yreka Branch
719 Fourth Street
Yreka CA 96097

Q24

Please select the community need(s) associated with this item and rate the level of need. 1 – Not a Need The community does not consider this an important need. 2 – Slight Need / Low Priority There is minimal concern or demand for this need. 3 – Moderate Need / Medium Priority The need is somewhat important but not urgent. 4 – High Need / High Priority The community strongly values this need. 5 – Critical Need / Immediate Priority This is an essential need requiring urgent attention or resources.

Support caregivers and families by providing a safe, dedicated space where caregivers can work or study alongside children in their care.	3
Increase foot traffic and engagement with other library resources and programs	4
Help bridge the digital divide for families without access to home offices or reliable internet	3
Enhance early literacy by creating opportunities for children to explore books while caregivers work	2

Q25

Please include any community needs not listed above and include the level of need.

Event attendance for parents would be easier with this space for children to play as they participate. Need = 4

Page 11

Q26

Yes

Would you like to request light tables?

Page 12

Q27

If so, how many light tables are you requesting?

1

Q28

Please provide the list of locations where the light tables will be delivered, including library name, full street address, and quantity requested per location.

Siskiyou County Library

Yreka Branch
719 Fourth Street
Yreka CA 96097
Quantity = 1

Q29

Please select the community need(s) associated with this item and rate the level of need. 1 – Not a Need The community does not consider this an important need. 2 – Slight Need / Low Priority There is minimal concern or demand for this need. 3 – Moderate Need / Medium Priority The need is somewhat important but not urgent. 4 – High Need / High Priority The community strongly values this need. 5 – Critical Need / Immediate Priority This is an essential need requiring urgent attention or resources.

Build sensory engagement that encourages curiosity and creativity for children	3
Offer STEAM learning to allow children to explore concepts in science, technology, engineering, art, and math	5
Encourage fine motor skills development through sorting, stacking, and arranging	2
Provide an accessible space for creativity, imagination, and social interaction	4

Q30

Please include any community needs not listed above and include the level of need.

An update for children's activities will inspire a positive experience with the library. Outreach events to engage middle school learners. Level of need = 5

Page 13

Q31

Yes

Would you like to request sewing machines?

Page 14

Q32

If so, how many sewing machines are you requesting?

6

Q33

Please provide one location where all sewing machines can be delivered, including library name and full street address.

Siskiyou County Library

Yreka Branch
719 Fourth Street
Yreka CA 96097

Q34

Library Makerspace,

How will these sewing machines be used in your library?
Select all that apply.

Library of Things (circulation),

Q35

Please select the community need(s) associated with this item and rate the level of need.1 – Not a Need The community does not consider this an important need.2 – Slight Need / Low PriorityThere is minimal concern or demand for this need.3 – Moderate Need / Medium PriorityThe need is somewhat important but not urgent.4 – High Need / High PriorityThe community strongly values this need.5 – Critical Need / Immediate PriorityThis is an essential need requiring urgent attention or resources.

Provide skill development opportunities to teach practical, lifelong skills	3
Support job seekers and entrepreneurs	2
Promote sustainability and repair culture	2
Improve community engagement by creating a collaborative space for people to learn together	4
Provide access to equipment that people cannot afford at home	5

EmPOWERing Access – Project Application (FY 2025/26)

Q36

Please include any community needs not listed above and include the level of need.

We have a homeless population that could benefit in having clothes or items repaired occasionally. Need = 3

Page 15

Q37

Please add any additional notes from your library to provide to the EmPOWERing Access project team.

The Siskiyou County Library Technical Services at the Yreka Branch has remained in the same location for over 55 years, with limited opportunity for expansion or modernization. These new and innovative ways to engage our patrons will help sustain the interests and evolving needs of our community for the next 55 years. We thank you for your thoughtful consideration in adding these enhancements to better serve the patrons of the Siskiyou County Library system.

Equipment
Offered

The Pillar Booth ADA

An oasis. The Pillar Booth ADA is an individual workspace designed to add privacy to bustling environments without sacrificing comfort. With a height adjustable desk, The Pillar Booth provides a quiet, comfortable space for calls, meetings, and heads down focus.

Suitable for any type of floor plan, Pillar Booths are used in offices, universities, libraries, apartment buildings, warehouses, and beyond. Made in the USA with incredible attention to detail, audio engineering, and comfort, it is no surprise that Pillar Booth is the fastest growing phone booth brand.

Pillar Booths are designed to be the industry-leader in sustainability, comfort, and durability.

Sustainable

Sustainably designed with eco-friendly wood, removable acoustic panels and an occupancy sensor to conserve energy.

Quick Assembly

The assembly of each Pillar Booth is minimal and takes less than an hour with two people using only an allen wrench.

High Quality Materials

Made in the USA with a durable steel frame, shatterproof polycarbonate door, and UL listed lighting and electrical components.

Code + Compliance

Pillar Booths align with building and local regulations without expensive modifications.

Total Cost Of Ownership

Pillar Booths are built to last and offer features that allow the booth to adapt to any space without additional expense.

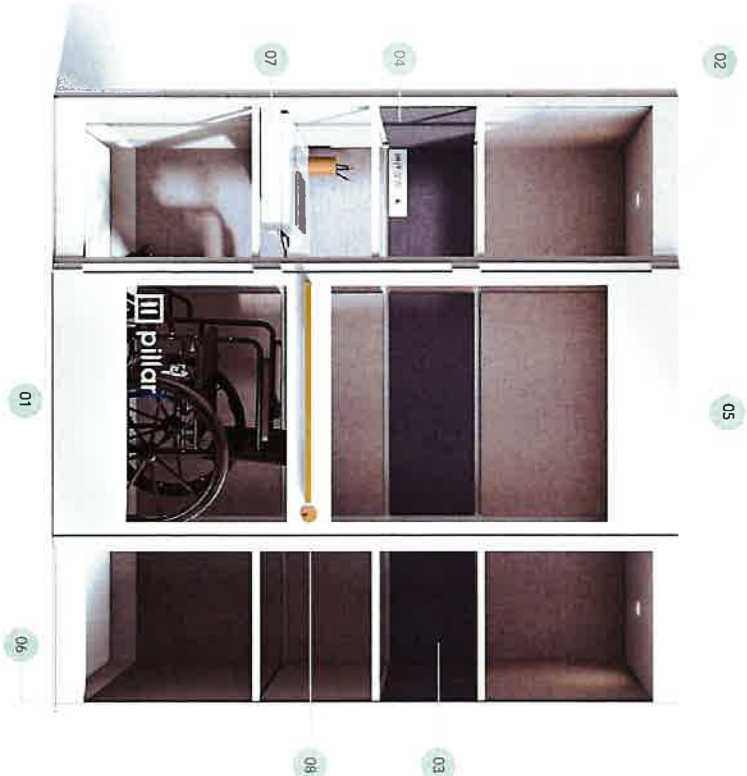

Made In America

Assembled in Chicago, Pillar Booth works with local suppliers for access to specialty parts, sustainable materials, and related processes.

Standard features

01 Active Ventilation

Two fans work together to refresh the air in the booth once per minute, providing significantly better ventilation than other privacy booths.

02 LED Lighting

Motion activated LED lights help to conserve energy and create a well-lit environment for video conferencing and focused work.

03 Removeable Acoustic Panels

Removable and cleanable acoustic panels maximize sound absorption and acoustic performance.

04 Power + Connectivity

USB A+C ports, outlets and an ethernet port ensure you can connect all your devices at one time.

05 Fire Suppression

Simply unscrew the sprinkler cap to install the sprinkler piping through a pre-drilled hole in the ceiling.

06 Seismic Anchors

Anchor your booth to the floor with Pillar Booth's Tapcon screws which can easily be bolted to the ground.

AV Kit

Seamlessly integrate a monitor or CPU into your booth for video conferencing.

Additional feature

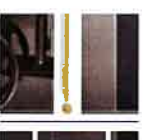

07 Height Adjustable Desk

The desk can be set at three different heights, making it easy to work from a chair, a stool, or while standing.

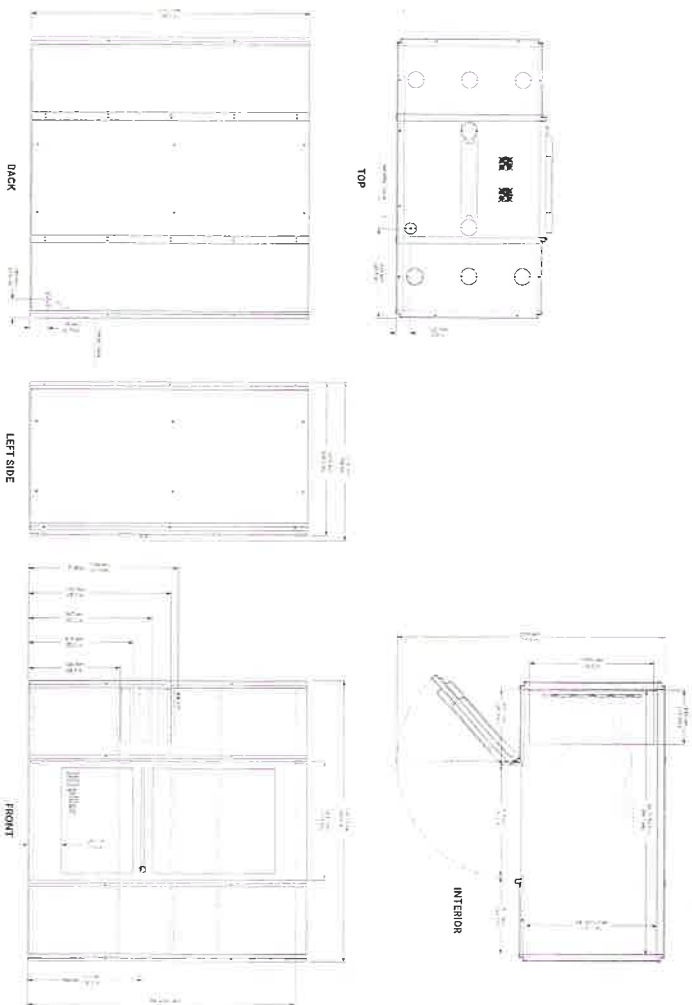

08 Magnetic Door Seal

The lockable polycarbonate and steel framed door keeps your conversation in and exterior noise out.

Book Bikes

STANDARD BOX INTERIOR: 30.75" L | 21.5" W | 20" T
· \$3650-\$3800

TECHNOLOGY BOOK BIKE: 36" L | 21.5" W | 24" T
· \$3650-\$3800

We built North America's very first Book Bike with Chicago's Gabriel Levinson in 2008. For over a decade we've been building very durable, smooth riding and attention grabbing Book Bikes for libraries and schools across the US and Canada. We have several repeat library system customers, and incorporate their suggestions from years of use into the newest builds.

Our Book Bikes are based on our original cargo trike frame, but open up in an unexpected way. They simply turn inside out. The lid and front are split, and the lids become two side tables with the fronts supporting their weight. Both side tables have book ends. The front can have chalkboard paint or bookmark/postcard holding hardware. Inside the box is an adjustable L shaped book shelf, and the floor of the trike is fully open as well, for three levels of book display. The lowest level is particularly suited for

levels of book display. The lowest level is particularly suited for children's books, as it's low enough for them to explore themselves, and the wheels and mechanical parts are far away from little fingers. The upper level is the same height as a kitchen counter, so it's comfortable for adults as well. An umbrella holder is standard. The outside of the trike when closed is just under 32", sized to fit North American standard 36" exterior doors, so you can get in and out of the library, and almost anywhere else.

The Standard Book Bike is sized to be filled with books (up to 260 pounds, about 200 is average), and still be light enough for a non-athlete to pedal for miles while still having plenty of display space when open. Our Technology Book Bike is simply 5" longer and 4" taller. They carry the same amount of weight. The additional volume is for carrying additional electronic equipment, like tablets, laptops, hot spots, and even battery systems and projectors for movie nights. There is more height between shelves, and an additional shelf at the handlebars for your electronics.

We can also add an electric assist, for longer distances or hilly environments.

Move What Moves You.

TMC KIDS

Family Workstation

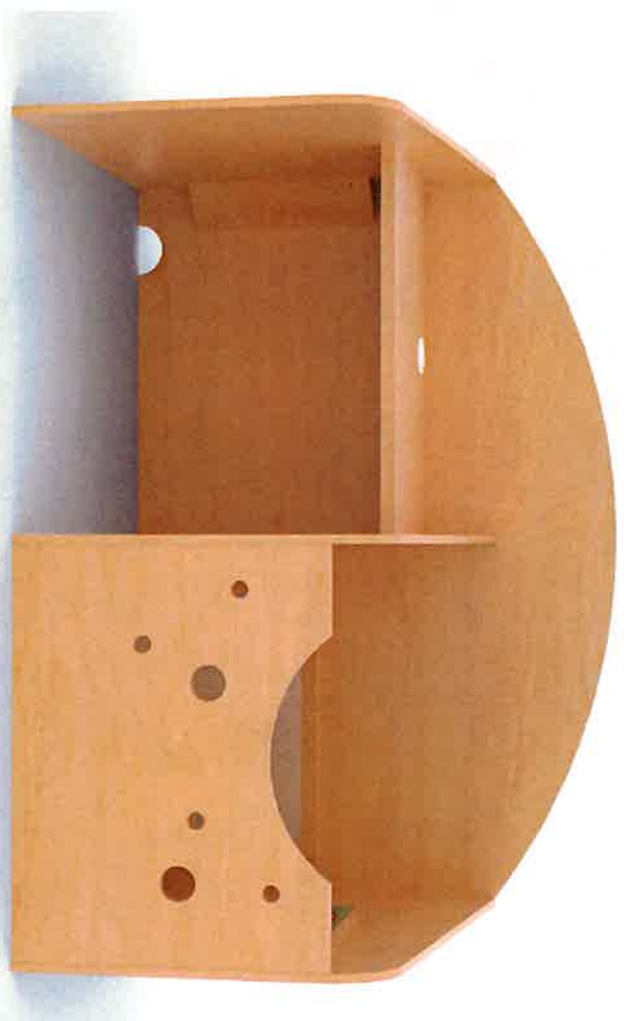

A community solution for a very human need.

Product Background

The Fairfield Parent+Child Carrel design was based on insightful challenges from the staff of Henrico County Public Library for their Fairfield Area Library. The staff noticed that parents with toddlers or infants in strollers had no easy way to use the library's adult reading room computer workstations. Further, their young children might disrupt the work of others using the library workstations. The library director, Barbara Weedman, and her staff wondered if Quinn Evans could help them find a solution.

The team at Quinn Evans, led by Senior Interior Designer Shannon Wray, called on TMC to create a custom workstation. Recognizing a need, sharing ideas and finding a solution: the Fairfield Parent+Child Carrel represents design collaboration and creativity at its best!

Family Workstation

Family Workstation

Product Details

The Family Workstation offers a value-priced version of the Fairfield Parent+Child Carrel. We listened to our customers who suggested we also offer a lower-height, more open, and less expensive model. The Family Workstation offers that solution. Available in single- or double-faced units. Each workstation includes a wire chase, PVC-free vinyl mat, mirror and one Learning Panel. ImPrinted imagery on the exterior side panels is optional. Modifications may include a gate with latch that opens and closes and up to two additional Learning Panels on the play interior. The Family Workstation maintains all of the safety and durability standards as our Fairfield Parent+Child Carrel but at a lower price point.

Models starting at \$3,750

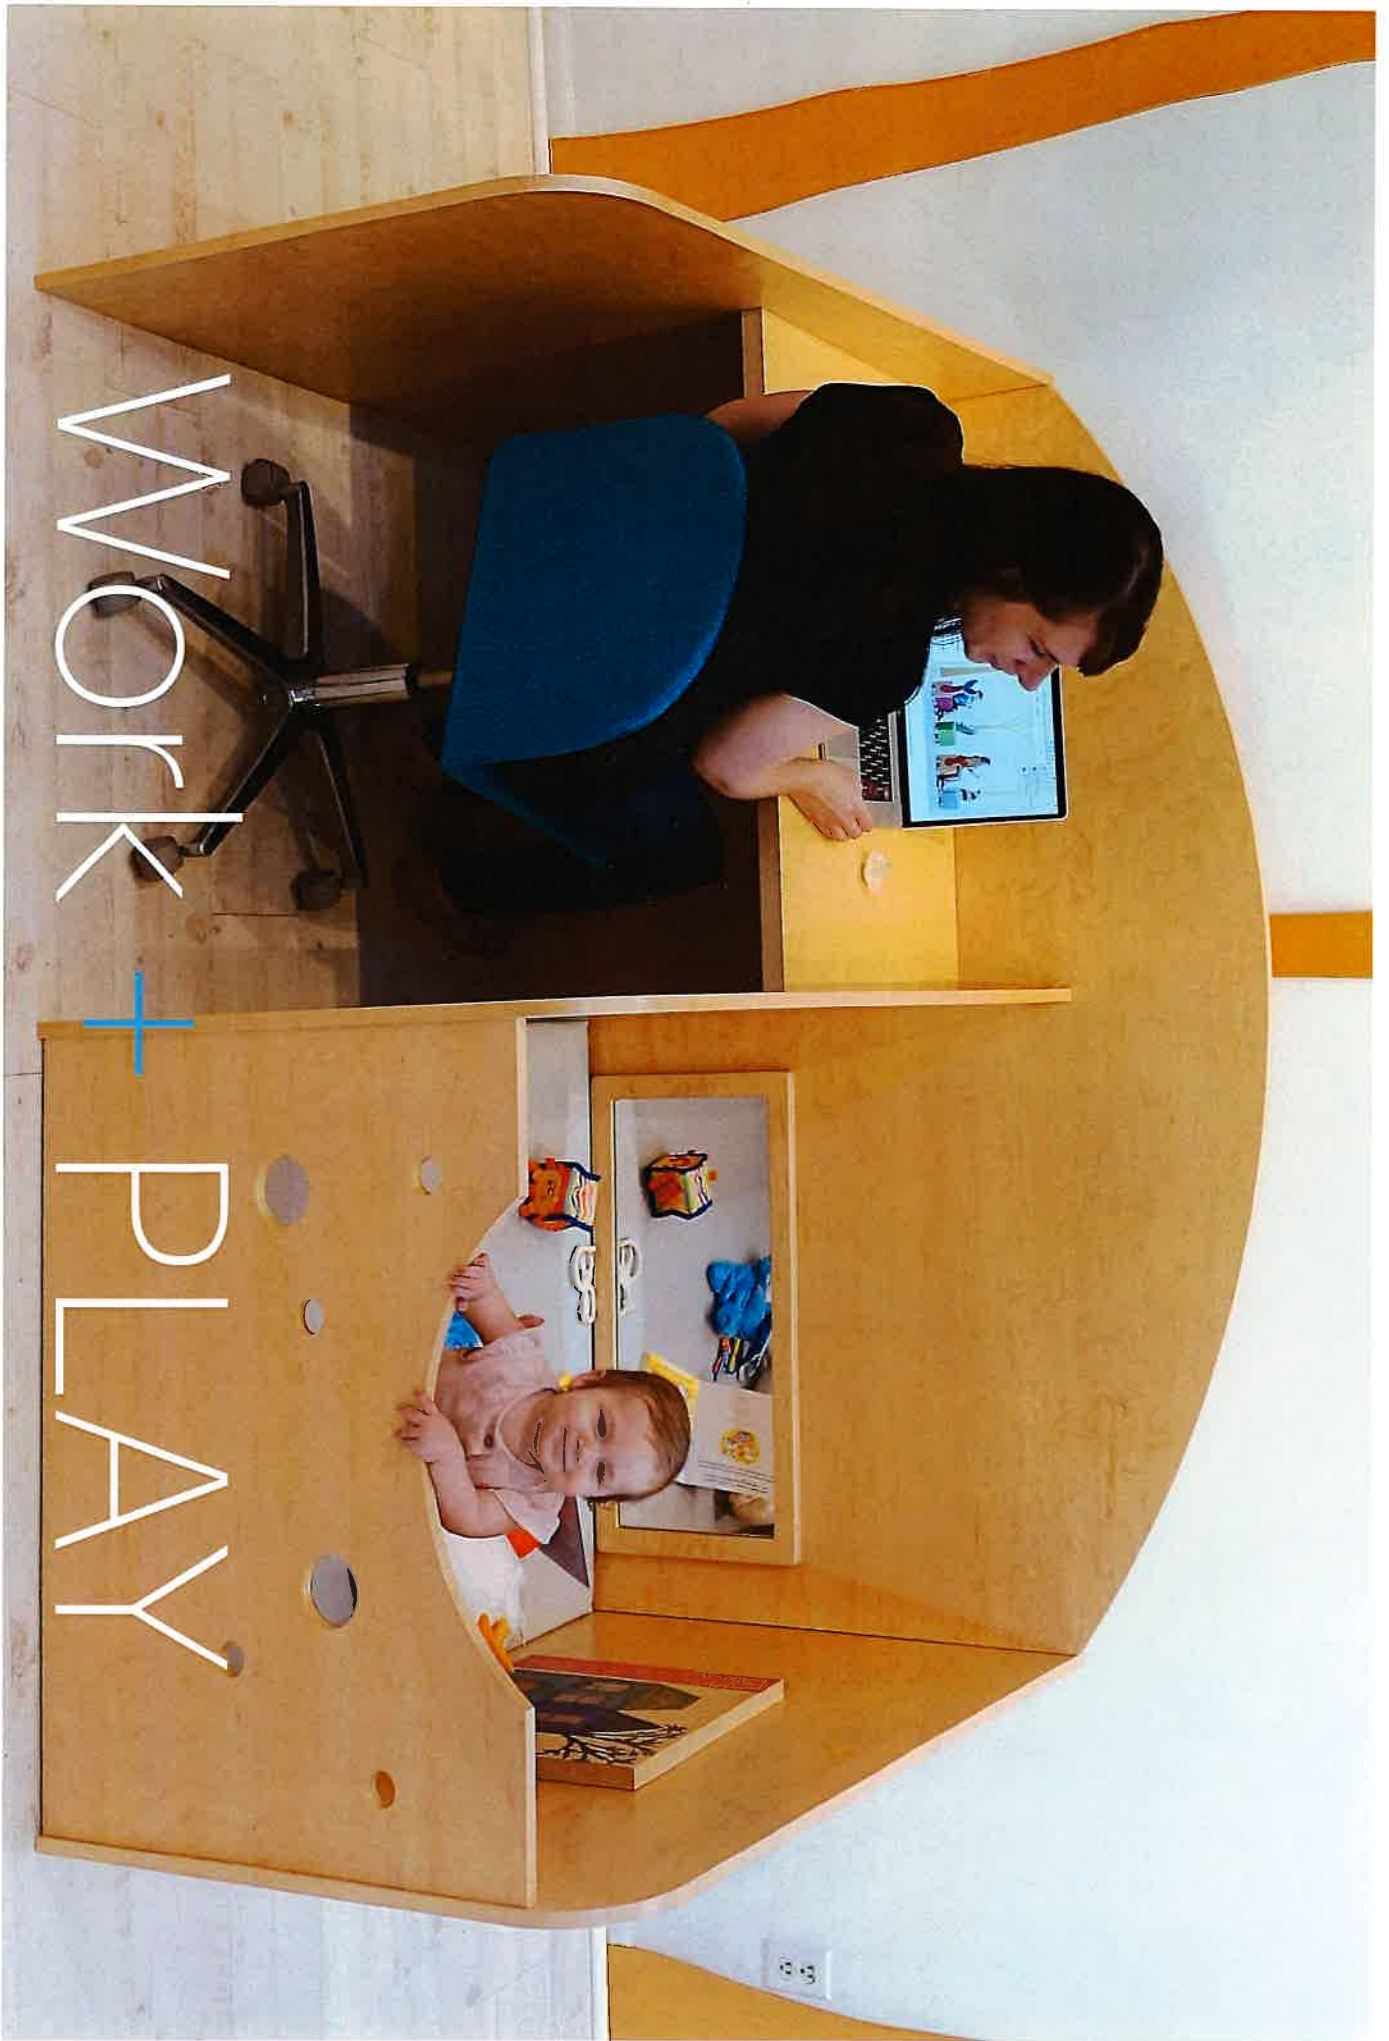

Pictured with optional gate.

PLAY

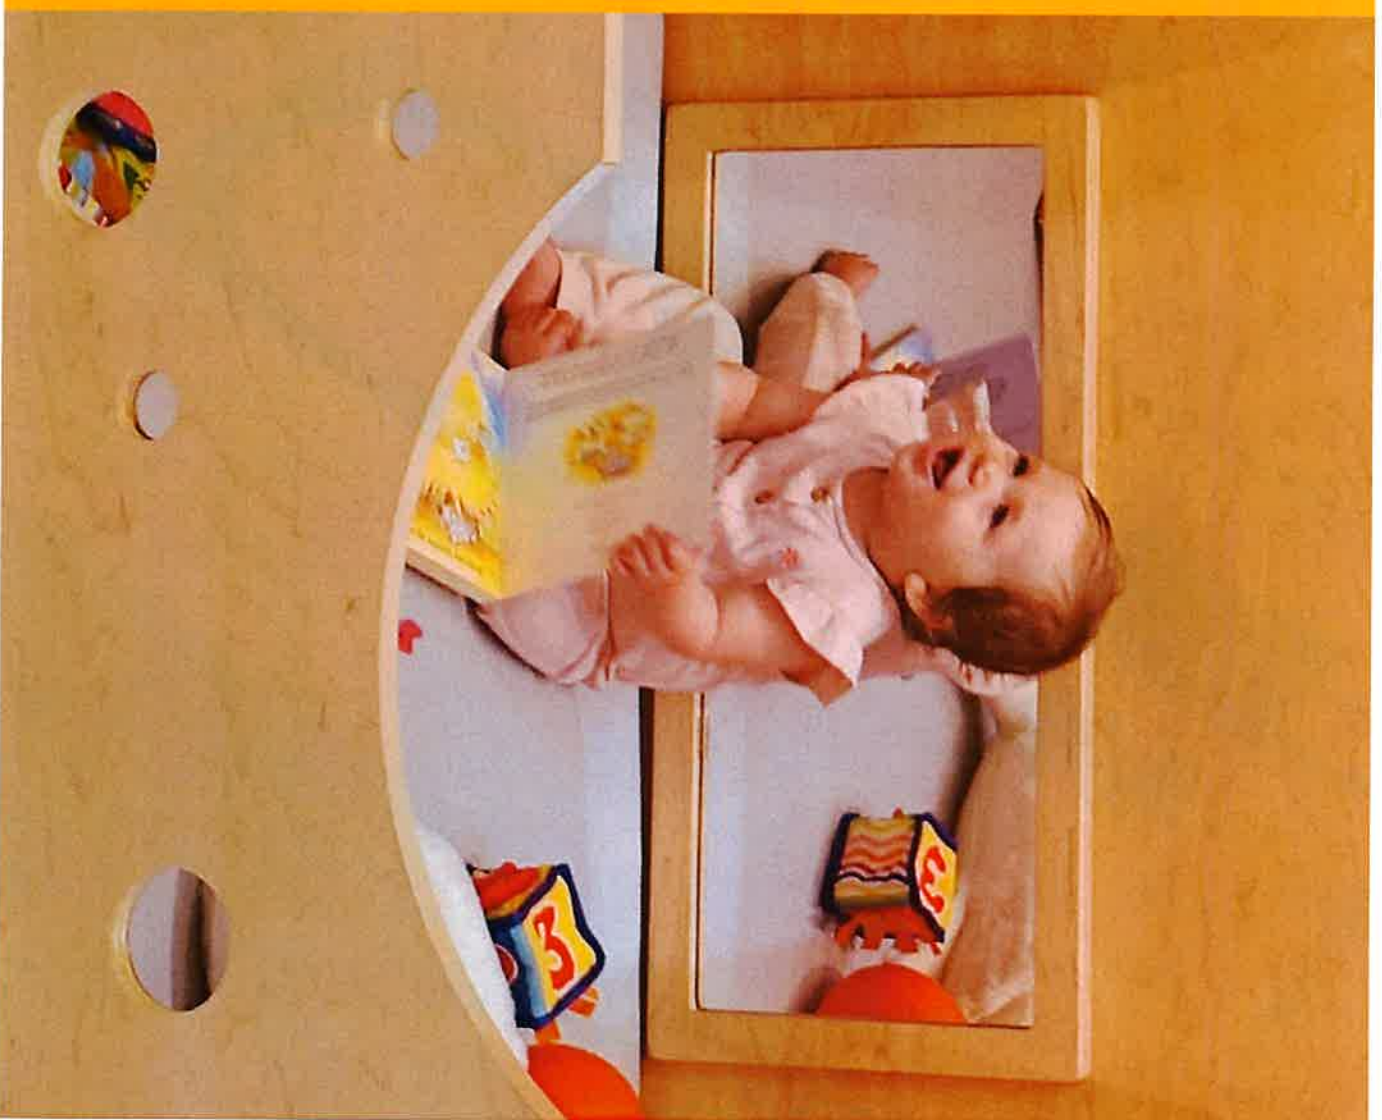

2 can PLAY too!

Family Workstation

- Made in our factory in Michigan.
- Constructed of high quality materials for long life-cycles.
- Made of wood. Warm and tactile.
- GREENGAURD Certified low VOC topcoat.
- PLAY mat is of high grade, PVC free, bleach cleanable material.
- Safe acrylic mirror has a solid maple frame.
- Learning Panels are interchangeable, offering color and visual beauty and early learning content. Children love exploring their world with a full sensory approach so creating an engaging and thoughtful space was key.
