Exhibit “A”

I. Scope of Services:

The SRF rehabilitation programs will be tailored to individual needs plans as well as community integration and resocialization needs. Structured day and evening services shall be available seven (7) days a week. All services shall be client-centric and are developed by an interdisciplinary team to meet the goals set collaboratively with the client and the client’s representative, such as a guardian or conservator. The range of services at a minimum will include:

1. Individual and Group Counseling – Counseling and therapy services shall be provided on both individual and group basis:

- A. Individual therapy – will be conducted as needed or according to the clients’ individual needs plans. The session will be conducted by the program director or a designated licensed mental health professional. The sessions will assist the client in identifying resources and solutions to problems affecting the client. Goal setting or evaluation, as well as feedback, may be included in these sessions.

- B. Group therapy – the daily group therapy is to assist the client in identifying resources and solutions into how to solve his / her problems, as well as choosing and implementing interventions to solve his or her problems. Group members are directed toward using their strengths to change their behavior. Clients receive feedback and emotional support from the group leader and group members. Having many therapeutic functions, the group process provides a supportive network of peers and opportunities for feedback from others. It is a format where healthy communication can be learned and practiced.

2. Crisis Intervention – The facility will take measures to reduce crisis incidents. The facility will create an environment that reduces stress and the potential for traumatic issues. The facility staff shall encourage strict adherence to medications by clients, staff will document missed medication doses in clients file, and report missed doses to program director immediately. All staff will be trained in the use of crisis prevention and intervention (CPI) techniques. The facility staff will be trained to identify mood changes and behaviors that may evolve into a crisis. The facility staff will be trained in the use of non-violent approach

to crisis intervention, such Proxemics (Personal space of a person) and Kinesics (Nonverbal communication through postures) to reduce anxiety, escalations, and agitations. If the crisis continues to escalate, and there is an immediate threat to the client and others in the facility, then the facility may call local law enforcement (911) to take the client to emergency room or a crisis stabilization facility.

3. **Planned Activities** – The activities programs will consist of daily individual and group activities to which family members can be invited if agreed to by the client. Such activities will include:

- a. Indoor/outdoor games and physical exercises to maintain physical health and wellness
- b. Social activities such as the celebration of birthdays, anniversary, special events, recognition days, and organized families' days.
- c. Offsite supervised activities away from the facility to facilitate community integration. These activities may include events organized by family members, groups the clients belong to, and community- organized events such as fairs.
- d. Education and creative activities to develop or promote independent thinking and problem-solving skills
- e. Other activities as determined by clients to promote clients' goals.

4. **Counseling with Clients and Family Members** – The program director or a designee may provide this counseling meeting or service. Family therapy/meeting goals are to reduce the conflict and anxiety in the family system, make the family members more aware of each other's needs, develop appropriate role relationships and promote health and growth of the entire family system.

5. **Community Support Systems** – In accordance to clients' individual needs plan, the facility will identify non-mental health community resources that can be utilized by the clients. These can include religious resources, county mental health resources, and local support groups.

6. **Prevocational or Vocational Counseling** – Clients, in accordance with their needs and services plan shall be provided vocational counseling. The facility shall collaborate with the clients to assess and determine current vocational skills if any, and use resources such as online training and external sources to provide vocation assistance to clients.

7. **Client Advocacy** – Clients shall have the rights guaranteed according to Section 5325 of the Welfare and Institutions Code. A list of these patients' rights shall be

posted in English in appropriate places within the facility so that such rights be read by patients.

8. **Money management** – All clients will be trained or advised on money management skills and techniques. Clients may be given the opportunity to work in the facility and earn wages.
9. **Self-control and symptom management** – The program director or a designated licensed mental health professional will educate and help the clients to identify symptoms of respective mental illness and help them to develop strategies for self-control and managing the symptoms. Positive reinforcement techniques may be utilized to promote self-control.
10. **Sex education** – This will be provided to all clients regardless of age, sexual orientation, gender, race, nationality, and religion.
11. **Personal grooming and hygiene** – Clients will be educated on the benefits of personal grooming and hygiene. Positive reinforcement techniques will be utilized to encourage these behaviors. Reward system may be introduced.
12. **Internal and External Socialization** – See Planned Activities
13. **Community Living and Interpersonal Skills** – The facility will encourage the clients to hold community meetings to include all patients on the unit. The elected community designate will call and hold these meetings in the facility. During this time, issues are identified that affect the community as a whole such as housekeeping, interpersonal problems between patients, sharing information and offering suggestions. The therapeutic focus of this meeting will be on how patients are progressing and the sharing of their daily individual goals. Peer support and encouragement are emphasized.
14. **Medication Support Services** – Medication support are services that can include the prescribing, administering, dispensing and monitoring of psychiatric medications or biologicals that are necessary to alleviate the symptoms of mental illness. Medication support activities may include evaluating the need for medication; evaluating clinical effectiveness and side effects; obtaining informed consent; instruction in the use, risks, benefits and alternatives to medication.

External Resources and Consultants – In the event that a client needs a service that is included in the rehabilitation/treatment plan but such service cannot be provided by the SRF, the SRF will utilize an external resource or consultant to provide such service. The SRF will arrange for transportation to the resource as required.
